

## FOR IMMEDIATE RELEASE

### DATA SYSTEMS & SOLUTIONS MAKES TWO KEY APPOINTMENTS

Reston, VA – March 26, 2007 – Data Systems & Solutions, LLC (DS&S), a world-class supplier of high-integrity and safety-critical systems and services to the energy, defense, civil aerospace, marine power and process industries, has appointed Alison Morgan as vice president of business development and marketing, and Kristen Giddens Pinto-Coelho as communications manager.

Morgan will develop and implement new strategies and methods to grow the business; organically as well as through partnerships and acquisitions. She reports to Henner Wapenhans, CEO of DS&S, and is based at the company's headquarters in Reston, VA.

*Alison Morgan*

Pinto-Coelho will develop and implement DS&S' communications strategy for both internal and external audiences. She reports to Morgan and is also based in Reston.

Morgan has 18 years of experience with Rolls-Royce and led the company's efforts to acquire full ownership of DS&S. Most recently, she managed corporate development activity for Rolls-Royce North America, including regional strategy development and mergers and acquisitions, with a focus on divestitures, joint ventures and formulating and implementing strategic alliances. Prior to that Morgan served in roles of increasing responsibility in business management and business development.

Pinto-Coelho*

Morgan holds a Bachelor of Law degree from Coventry University and a Masters of Business Administration from Loughborough University, both in the United Kingdom.

With more than 10 years of experience in corporate communications, Pinto-Coelho comes to DS&S from Raytheon Technical Services Company LLC, where she most recently served as senior communications manager. There she was responsible for both internal and external communications, including strategy development and implementation for media relations, advertising and marketing, and executive and organizational communications.

Pinto-Coelho holds a bachelor's degree in English from Trinity University in San Antonio, Texas.

#### Notes to Editors:

1. A wholly-owned subsidiary of Rolls-Royce, Data Systems & Solutions is a world-class supplier of high-integrity and safety-critical systems and services that increase the availability and drive down the in-service cost of high value assets. With more than 600 employees working from offices in the Czech Republic, France, the United Kingdom and the United States, DS&S applies its domain expertise and core competencies in software engineering, predictive services and information management to protect, control and optimize reliability and availability, while ensuring safe and profitable operations. DS&S was a joint venture company in which Rolls-Royce held a 50 per cent interest until March 2006, when Rolls-Royce acquired full ownership.
